

SUNROOF
PRODUCT AND PURPOSE CATALOGUE

Humans are designed as an outdoor species

Humans are inherently designed by God as outdoor species, evolved to live under the sun, which serves as vital nourishment for our minds and bodies for the living beings.

Our mental and physical health is intricately tied to sunlight exposure, emphasizing our deep-rooted connection to the natural world as essential for our well-being.

But we spend **90%** of our time indoors, away from natural light

The human species, historically attuned to outdoor life under the sun, now spends over 90% of its time indoors, leading to a profound disconnection from natural sunlight and the outdoor environment. Our daily routines are predominantly spent within our homes and office spaces which have little to no exposure to sunlight. Just like water and vegetables play a vital role in nurturing the human body, same way the sun also plays a vital role in nourishing the mental and physical health of humans. When we do not interact with the sun, it causes disturbances in our minds and bodies.

This takes a toll on our mental and physical health

Living mostly indoors with limited sunlight can negatively impact our mood, stress levels, focus, and overall well-being. Natural sunlight boosts serotonin, a neurotransmitter that enhances happiness, clarity, and sleep. Without it, stress increases and mood declines. Sunlight also supports better concentration and productivity, making it essential for emotional and mental balance.

Introducing SUNROOF

World's first wellness lighting system that brings the
experience and benefits of sunlight indoors.

The Future Of Indoor Lighting.

SUNROOOF is the worlds first wellness lighting technology that brings the experience and benefits of sunlight inside any space through advanced optics, special lenses and AI.

Transforming dull, dark and lifeless areas to beautiful sunlit courtyard experiences.

Bring The Sun Experience To Any Ceiling,
Any Room, Any Floor

Our Patented Technology Innovated And Engineered In Germany.

SUNROOOF is our own patented technology. It has been engineered in Germany and it is manufactured in India. Our special lenses and light optics makes the light appear as if it's coming from the sky above, not just from your ceiling. This creates a deep, natural glow that instantly lifts your mood and transforms the way a space feels. It's not just lighting, it's sunlight, reimagined.

Changes colors and brightness just like the real sky using AI

SUNROOOF dynamically adjusts its color and brightness based on the sunlight outside. As the sun moves through the sky, it responds by changing tones and intensity, creating a perfect balance of natural light indoors. This adaptive feature enhances comfort, reduces glare, and brings the outdoors inside, making every moment brighter and more connected to the natural rhythm of the day.

Feel the light coming from far away

Ordinary lighting

CLOSE TO THE EYE | DIRECT | HARSH

Most regular lights are placed right on the ceiling, so you can clearly see where the light is coming from. The light feels direct, harsh, and a bit artificial, it doesn't feel natural or comforting like sunlight.

v/s SUNROOOF

FEELS DISTANT LIKE THE SKY | GENTLE ON THE EYES

SUNROOOF creates a unique kind of lighting experience. You can't see where the light is coming from, it feels like it's coming from far above, it creates a depth effect, just like real sunlight. It makes the space feel bigger, softer, and more uplifting.

SUNROOOF Is **Not** A Stretch Ceiling

AND WE TAKE OFFENCE WHEN SOMEONE CALLS IT THAT

Stretch ceilings or stretch fabrics are simply large light sources made by placing LED lights above a stretched fabric. The purpose of stretch ceilings is not to mimic sunlight, rather to just illuminate a space with light, the effect feels flat and dull.

SUNROOOF isn't just a light, it's a wellness lighting technology designed with only one purpose – to bring sunlight indoors. It uses advanced patented technology like optics, lenses, and glass to recreate the feeling of real sunlight coming from above. The result is a beautiful sky on your ceiling, with a boost in mood, focus, and overall well-being.

Control It Manually

Although, by default the **SUNROOOF** is meant to automatically change its colours and brightness according to the sky outside. But the users also have the ability to manually override the automatic command. This can happen by using the remote control or the mobile application.

Please note: The mobile app is included at no additional cost, while both physical remotes are available as paid accessories.

leading design and wellness communities.

Wellness Benefits of SUNROOOOF

I. Brings Happiness, And Feelings Of Joy

SUNROOOOF creates a calming, stress-free environment, enhancing relaxation and positivity, just like natural sunlight. It helps regulate mood, reduce anxiety, and promote emotional balance, making your space a peaceful retreat.

2. Increases focus and concentration

SUNROOOF enhances serotonin levels, sharpening focus and mental clarity—keeping you engaged and productive throughout the day. Natural light reduces stress, lifts mood, and supports a healthier, more energized mind, perfect for work, study, or creativity.

3. Enhances Mood And Surroundings

SUNROOOF makes us feel more relaxed, calm and happier when we are under it, reducing a lot of our stress. It gives a very joyful and positive aura just like the real sun. It has a substantial impact on our mood and emotions.

THE CLASSICAL SUNROOOF

THE GREENS SUNROOOF

THE MINIMALIST SUNROOOF

THE ATRIUM SUNROOOF

ARCH WINDOW

FRENCH WINDOW

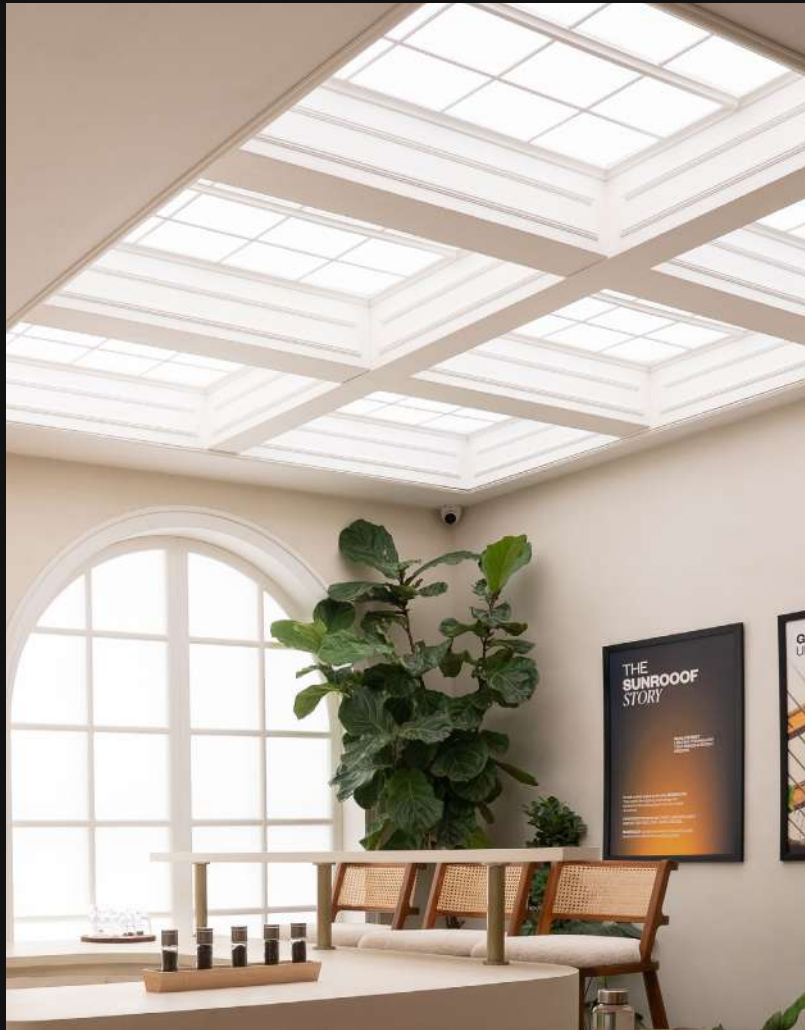

LOUVERED WINDOW

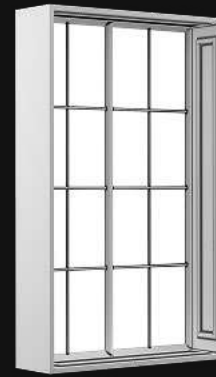

The wall-mounted designs offers versatile elegance suitable for variable decors. Its graceful shape enhances any space.

I. THE CLASSICAL SUNROOOF

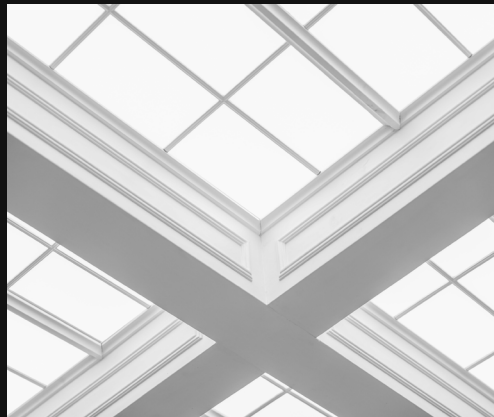

● MYSTIC WOOD

● PEARL WHITE

Elevate your space with **The Classical SUNROOOF**, designed for ceiling installation. This model combines colonial elegance with French sophistication, transforming any room with the ambiance of natural sunlight.

Depth needed: Minimum 330 mm from ceiling
Console Size: 1200 mm x 400 mm per console

2. THE GREENS SUNROOOF

● PEARL WHITE ● MYSTIC WOOD

Enhance your space with **The Greens SUNROOOF**, designed for ceiling installation. It radiates a warm, homely vibe.

Featuring sleek aluminum rods, which allows for hanging greenery, blending natural elements with contemporary aesthetics.

Depth needed: Minimum 315 mm from ceiling
Console Size: 1200 mm x 400 mm per console

3. THE MINIMALIST SUNROOOF

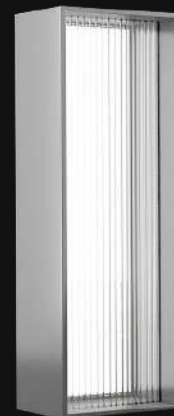

● MYSTIC WOOD

● PEARL WHITE

● REGAL BRONZE

● TITANIUM GREY

The Minimalist SUNROOOF is another ceiling-mounted design. Perfect for modern and minimalist homes. It enhances spaces with slick and contemporary style.

Depth needed: Minimum 315 mm from ceiling

Console Size: 1200 mm x 400 mm per console

A sunroom with a large French window featuring multiple panes. The room is filled with various potted plants, including large green leafy plants on the sides and a central arrangement of smaller plants with yellow and green foliage. The floor is covered with light-colored gravel and several large, flat stones. The overall atmosphere is bright and airy, with natural light streaming in through the window.

4. THE FRENCH WINDOW

French Window Size:

Please note: We can customise the overall size of the window according to your requirement as shown in the photos, making it bigger or smaller if needed.

Also, the wall sections between the windows, along with the mouldings, are also part of our scope of work.

Mounted on the wall, **The French Window** captures the essence of classic French design, making it ideal for spaces with a colonial aesthetic. When paired with some sheer curtains, this design looks absolutely gorgeous.

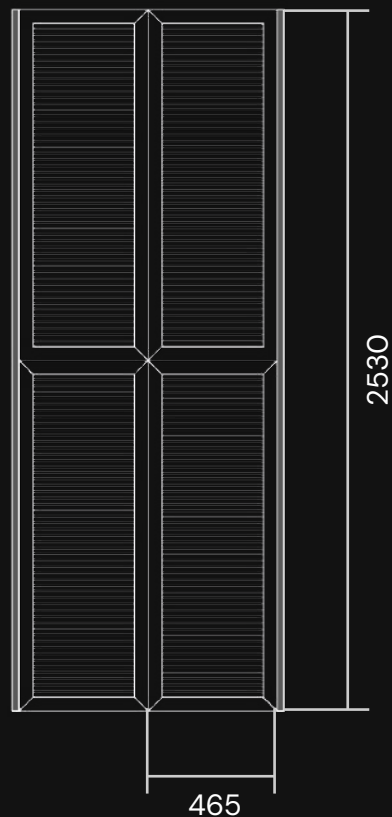

Depth needed: 150mm from wall
Mobile Support: IOS & Android

5. THE LOUVERED WINDOW

Louvered Window Size:

Please note: Each shutter in the louvered window has a fixed size of 1265 mm (H) x 465 mm (W).

However, you can combine multiple shutters both vertically and horizontally to create a larger window as per your requirement.

The Louvered Window SUNROOOF is a wall-mounted design that seamlessly integrates with any interior theme. It's adaptable style and functionality make it suitable for a variety of applications providing a versatile solution that complements diverse design preferences.

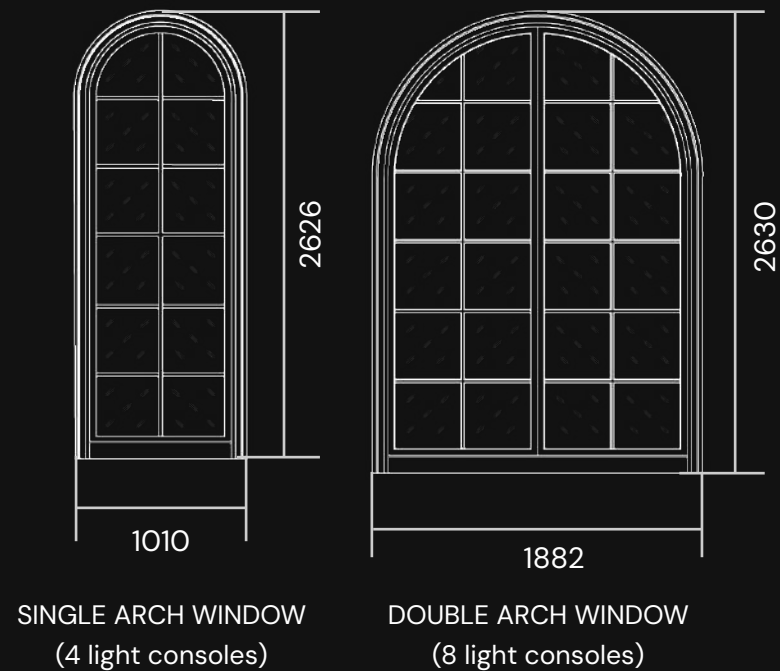

Depth needed: 150mm from wall

Mobile Support: IOS & Android

6. THE ARCH WINDOW

Arch Window Sizes:

Please note: Custom 12-feet high (3660mm) arch windows are also available on request.

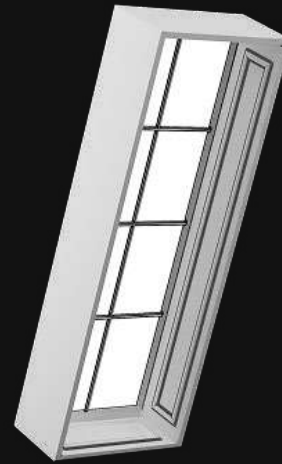

The Arch Window **SUNROOOF**, a wall-mounted design in the shape of an arch, offers versatile elegance suitable for both colonial and minimalist decors. Its graceful arch shape enhances any space, merging classic charm with modern simplicity.

Depth needed: 315 mm from wall

Mobile Support: IOS & Android

7. ATRIUM SUNROOOF

● PEARL WHITE

Unique In design, the **Atrium SUNROOOF** Is mounted diagonally on the ceiling. It is similar to how a real atrium looks and feels especially if placed on both sides of the room.

● MYSTIC WOOD

Console Size: 1200 mm x 400mm per console
Mobile Support: IOS & Android
